**CONSTRUCTION:**

For each new project we implement and maintain a Quality Control System that identify and correct potential and actual problem areas throughout the entire scope of the contract. During the term of the contract we monitor this QCS and update the plans where and when necessary.

We would ensure total customer satisfaction throughout the life of all contracts adopting the customer's mission as our own and innovatively addressing customer challenges. Our activities include all stages of general construction. Earth works including excavation, backfilling compaction, grading and bund walls. Concrete works starting from reinforced concrete foundations to the superstructure. Our activities include major foundation works for the oil and gas industry as well as complicated structural works for buildings. Structural steel works which included design of structure, supply of materials and erection. The said works included all structural members and cladding works. The executed projects included complicated steel buildings, shelters, pipe racks, storage areas and plant rooms.

Finishing works which included all wet and dry finishes such block works, plaster, painting, tiling, partitions and false ceilings. Furniture works where our activities included the supply of major furniture and furnishings for major projects in United Arab Emirate (Dubai). Infrastructure and road works the activities included major cut and fill trenches, supply and installation of all underground services of sewage, storm water, water supply, electrical and telephone works. The said works included supply and installation of all materials, construction of manholes and inspection chambers.

We have a good track record and adequate Experience, Equipment and Techno-Commercial Manpower to design and execute following contracting works on time.

We have tie-up with leading companies in Afghanistan / United Arab Emirate / Europe / US to supply any spare parts or Service requirements for all type of equipment and we have made elaborate arrangements with online Spare parts / Courier Companies to import and hence ensure fast delivery to our customers for any locally non available spare parts or equipment / Materials upon request.

## **Mission & Vision**

### **Mission**

“Our Mission is to offer our expertise support and local experiences to expedite logistics and contingency support to the day to day needs arising from the various organizations.

### **Vision**

our vision is to be a prime vendor and expeditor for the national & international organizations

- Respecting and valuing human rights without discrimination based on religion ethnicity, political, nationality, etc.
- Meeting the client's expectations by providing efficient and affordable services
- Giving options and choices for customers and being flexible and patient about their request and ideas.
- Creating friendly and trustful working environment in the company based on mutual understanding.
- Being honest and truthful with clients and keeping our promises.
- Being accessible to our clients, while they are in need of our services
